Opis produktu

ECO SMALL WINDOW Stand-Up Pouch with ZIP Closure and Easy-Open Tear Notches

The ECO SMALL WINDOW stand-up pouch is made from PAP45/PET12/CPP laminate, combining the natural appearance of paper with the functionality of multilayer packaging. A small transparent window displays the contents without opening the pouch.

The resealable ZIP closure allows repeated opening and closing. The top of the pouch can also be heat-sealed above the zipper, while the easy-open tear notches facilitate first opening after sealing. The bottom gusset allows the filled pouch to stand upright.

Typical applications:

- Tea, herbs and spices.
- Nuts, seeds and dried fruit.
- Dried mushrooms and other dried products.
- Confectionery and dry bulk products.
- Dry pet treats.

Packaging features:

- **PAP45/PET12/CPP laminate** – a combination of paper, PET and CPP layers.
- **Small transparent window** – displays the contents.
- **Resealable ZIP closure** – convenient repeated opening and closing.
- **Easy-open tear notches** – facilitate opening.
- **Heat-sealable top** – additional sealing above the zipper.
- **Stand-up bottom gusset** – convenient shelf display.
- **Food-contact certification** – confirmation of suitability for food contact.
- **PPWR declaration** – packaging documentation.
